Whale Safari - Whales, Puffins & Reykjavik - 2017

Experience the wildlife and nature adventure of a lifetime the most personal whale watching tour.

The custom made RIB boats allow you to closer to the whales and puffins than any other tour can offer. These fast, stable and safe boats allow us to cover more area as we search for the wild life, thus increasing your chances of spotting whales, dolphins and bird life.

This great whale watching tour starts from the old harbour of Reykjavik but firstly visiting the puffins in their natural habitat on the islands of the nearby bay. Next we head out in search of whales. Few things will beat this personal and up close experience of seeing whales and dolphins from the RIB boats.

After the whales safari we travel back to Reykjavik. Here we will sail along the shoreline of the city, experiencing a unique view from the sea (perfect for photos). The boats will take you past the Sun Voyager sculpture and the harbour side of Iceland's most famous building, the glittering Harpa Concert Hall.
