ACCRA/ABURI BOTANICAL GARDENS/SHAI HILLS RESERVE/CEDI BEADS/ACCRA

Buffet breakfast will be in the main dining room. After breakfast we drive to Shai Hills Reserve with a stop at Aburi Botanical Gardens overlooking the coastal plains at an elevation of 1,200 – 1,500 ft. above sea level. Here you will learn about the cultural and medicinal importance of some of the trees and plants in these gardens.

In colonial times the gardens were used as a retreat for official visitors and others who needed to escape the hustle and bustle of the big city. The Gardens attract visitors from all over Ghana including chaperoned school outings as well as an abundance of foreign visitors.

Continue on to Shai Hills Game Reserve made up largely of savanna covered plains grassland and low dry forest. The reserve is rich with wildlife and birds. After the safari, we continue to Royal Senchi Hotel for lunch.
