We visit the old city of Vilnius, recognized by the UNESCO as world heritage. The old town is a real maze of streets. In the center we find the cathedral with its bell tower. It is located in the former place of an ancient pagan temple dedicated to the God of Perkunas. Originally the building was located within the walls of the Lower Castle.

In the narrow old streets we discover historical heritage such as the St. Anna church, the old university, the St. Peter-Paul church, the chapel of the Dawn as well as the ruins of the Lower and Upper Castle.
