Cruise on a gulet

We'll walk the group down to the waters edge, in Valletta, to cross the harbour to arrive in Vittoriosa.

The gulet is a wooden traditional boat, a typical transportation in Malta.

From the boat, one will have the chance to experience the fortifications surrounding of two of the most important cities on the island: Valletta and Vittoriosa. Vittoriosa was the city where the Knights of St John first settled before building the Capital City Valletta.

Guided tour of Vittoriosa Riviera della Marina

Birgu (Vittoriosa) is the oldest settlements on the shores of the Grand Harbour in Malta. Its Maltese name "Birgu" is derived from "Borgo", probably because of its long relationship with the Fort St Angelo, Birgu being "il Borgo del Castello" or "le Bourg du Chateau." It was given the name of Vittoriosa after the Great Siege in 1565. Although it is biased to characterize the history of Birgu exclusively or primarily through its role in wars and conflicts, this is sadly still the foundation of its history and has left marks on it so far.
