Kennedy Space Center
Tour and Farewell Dinner

Kennedy Space Center is the birthplace of America's space program, and the only place on Earth where man has launched into space to set foot on the Moon.

Experience the past, present and future of the Kennedy Space Center on this day tour excursion.

Following the evolution of the space program, the space program's past and future come alive thanks to the insight of a veteran astronaut. Go behind the gates of NASA on the Kennedy Space Center Bus Tour that includes views of launch pads and the Vehicle Assembly building (VAB).

The day ends with a farewell dinner in either the Debus Center or the Space Shuttle Atlantis venue.
