Optional trip 3: Lake Bled & Vintgar Gorge

Beyond the city of Ljubljana to the northwest lies a small but spectacularly beautiful lake right out of a Hans Christian Andersen fairy tale.

A destination you will remember and cherish: in the heart of the Julian Alps in lush green landscape and ever-changing color of the water from emerald green to deep blue. The ever-fresh Alpine air with the scent of linden oak and spruce trees will give you light feet when walking around the lake.
